

External project works and diploma theses / mini and master theses

will be supervised by the professors of the Faculty of Mechanical Engineering of RWTH Aachen University provided that ...

- 1) the student applies for the approval of the Examination Board (*Prüfungsausschuss*, PA),
- 2) the projected work meets the interest of the supervising chair concerning the relevant field of research, i.e., the chair can reasonably supervise and grade it,
- 3) a sufficient scientific supervision can be warranted on-site by the person named below who has completed a scientific education and at least achieved the level of a university diploma in the relevant subjects,
- 4) on-site, an adequate instrumental equipment is made available if necessary, and on-site, it is ensured that the student does not just execute the work of temporary or laboratory assistants,
- 5) before taking up the thesis, the goal and the different work steps must have been specified in written form, and a time schedule must have been compiled,
- 6) the student agrees to hand over (e.g. by e-mail) at least every four weeks a report to the responsible supervisor at the chair,
- 7) the student agrees to give a short lecture at the supervising chair of RWTH Aachen University before grading,
- 8) the student is aware of the fact that an external thesis will be graded according to the same rules as internal theses,
- 9) the institute or company offering the external project work or thesis does not demand the signing of a non-disclosure agreement, unless, there exist contractual obligations or co-operations between the institute or company and the supervising chair.

We agree to the above-mentioned conditions.
